Title	
Authors	
Main message *(40-70 words)*	
Intention *(feelings, response you'd like the audience to experience.)*	With our artwork, we'd like to convey...
Initial ideas *(include here sentences, bullet point lists, sketches, drawings, post-its or anything you produce in the brainstorming phase. If you use AI, write down the ideas it gives you)*	Has AI helped in brainstorming? If so, which ideas did it give?
Iteration I: *(plan the task distribution before creating the artwork)*	**What** is the AI going to do? **Why** did you decide to use the AI for that?
Iteration 2: *(fill it in only if you do a second iteration)*	What did you change in this new iteration? Why? Did the role of AI also change?
What AI did: *(Enumerate everything the AI did throughout the creative process. Fill this space in at the end, once the artwork is finished)*
